EGYPTIAN HERBS, SPICES, SEEDS & LEGUMES

About *HS Herbs*

HS Herbs is an Egyptian exporter of dried herbs, spices, seeds and legumes, based in Ibshway, Fayoum. We supply importers, wholesalers and food and botanical processors, and ship from the port of Alexandria.

Sourcing

Each product is sourced from its Egyptian growing region, from Fayoum and the Nile Delta to Upper Egypt and Sinai, and harvested in season.

Processing

Material is dried, cleaned, sorted and cut or graded to the specification agreed with the buyer, then checked lot by lot before packing.

Export

We trade FOB Alexandria, CFR and CIF, and every consignment ships with its certificate of analysis, phytosanitary certificate and certificate of origin.

GROWING REGIONS IN THIS CATALOG

Nile Delta · Upper Egypt · Fayoum · Sinai · Aswan · Sohag · Beheira · Giza · Ismailia · Minya

“Healthy Origins, Safe Quality” is the promise behind every lot we ship.

HATEM SHAABAN · FOUNDER & EXPORT MANAGER

STANDARDS WE WORK TO

Quality & *Certifications*

HS Herbs is ISO 22000 and ISO 9001 certified, HACCP compliant, and FDA Registered. The Halal certificate is available on request. We provide Certificate of Analysis (COA) and phytosanitary documentation with every shipment.

 ISO 9001 Quality management system	 ISO 22000 Food safety management system	 HACCP Hazard analysis and critical control points	 FDA Registered US FDA food facility registration	 Halal ON REQUEST Compliance with Islamic dietary requirements
---	--	--	---	---

Checked lot by lot

Each lot is checked against the agreed specification and ships with a certificate of analysis.

Agreed specification

Specifications, grades and packaging are agreed in writing before an order is confirmed. Tighter or customer-specific limits can be agreed.

Independent inspection

Pre-shipment samples can be sent for approval before loading. Third-party inspection (SGS, Bureau Veritas, Intertek) is available at the buyer's cost.

Labelled for traceability

Every package carries the product name, net weight, lot number, production and best-before dates and origin.

A certificate of analysis *for every lot*

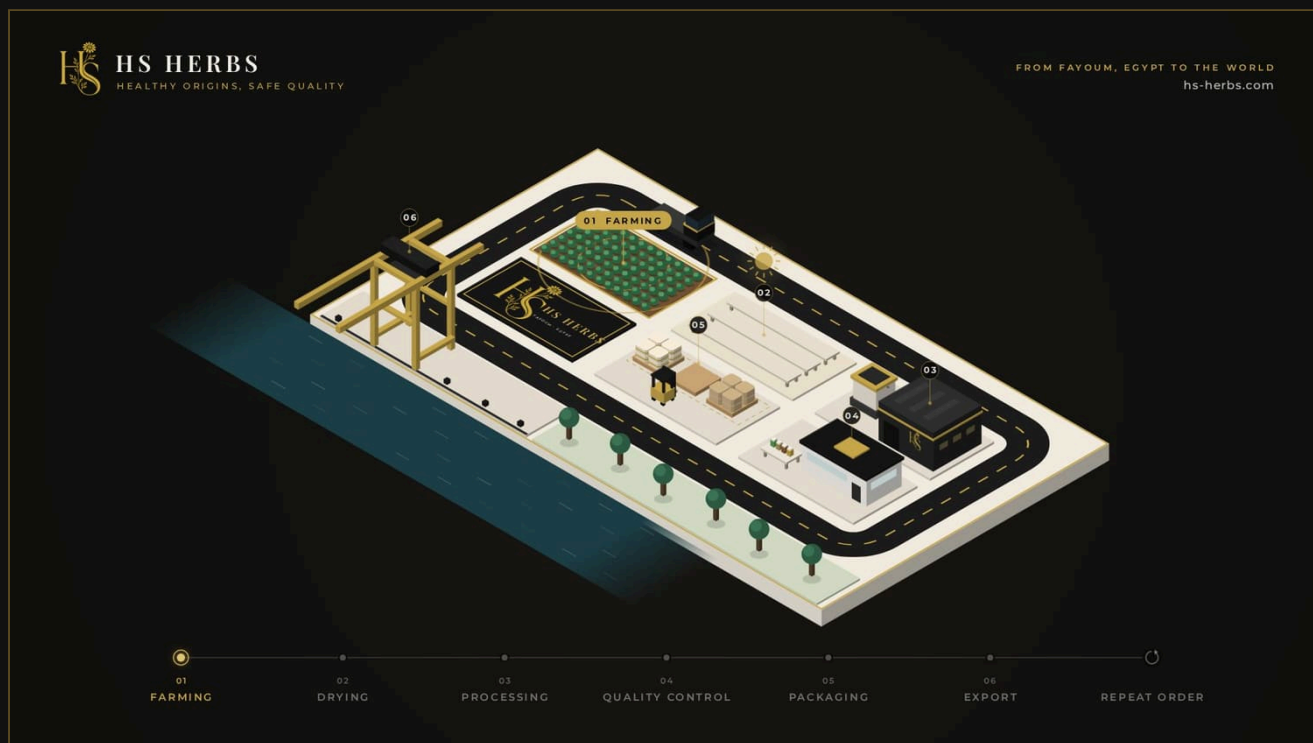

Each lot ships with its own certificate of analysis, and tighter or customer-specific limits can be agreed. Microbiological, heavy-metal and pesticide-residue parameters are agreed per contract against the destination market's requirements and reported on the certificate of analysis.

Copies of our certificates are available on request.

SIX STEPS

From Farm *to Port*

Six steps take a harvest from the farm to a container leaving Alexandria: farming, drying, processing, quality control, packaging and export.

01

FARMING

Crops are grown and harvested in season on Egyptian farms, starting in Fayoum.

02

DRYING

Harvested material is dried to bring moisture down before processing.

03

PROCESSING

The dried material is cleaned, sorted, and cut or graded to the agreed specification.

04

QUALITY CONTROL

Each lot is checked against the agreed specification and ships with a certificate of analysis.

05

PACKAGING

Product is packed in the packaging agreed with the buyer and labelled by lot.

06

EXPORT

Shipments leave Alexandria with the export documents the destination market requires.

Specifications are typical values; final specifications are confirmed per contract and certificate of analysis

MEDICINAL HERBS

Calendula

Calendula officinalis

الكاليندولا المصرية

Calendula (*Calendula officinalis*), grown in the Nile Delta, is bought for its colour and for its use in botanical extraction. The commercial value sits in the intensity of the orange-yellow pigment, which is a direct product of harvest timing and of how quickly and gently the flower is dried after picking.

HS CODE (HS 2022) 1211.90	ORIGIN Nile Delta, Egypt	AVAILABLE FORMS Whole Flower / Petals	PACKAGING Cartons / PP Bags
PLANT PART Flower heads and petals	MINIMUM ORDER 5 MT	HARVEST SEASON March – June	SHELF LIFE 24 months from production date

SPECIFICATION

DESCRIPTION	
Appearance	Whole or cut dried flowers, orange-yellow
Colour	Bright orange to golden yellow
Odour	Characteristic, faintly aromatic
HANDLING	
Storage	Cool, dry place below 25 °C, away from direct sunlight and moisture

CERTIFICATE OF ANALYSIS PER LOT

ANALYTICAL	
Moisture	≤ 10%
Total Ash	≤ 8%
Acid-Insoluble Ash	≤ 2%
Foreign Matter	≤ 1%
Stems	≤ 3%

Each lot ships with its own certificate of analysis, and tighter or customer-specific limits can be agreed. Microbiological, heavy-metal and pesticide-residue parameters are agreed per contract against the destination market's requirements and reported on the certificate of analysis.

MEDICINAL HERBS

Chamomile

Matricaria chamomilla

البابونج المصري

Egyptian chamomile (*Matricaria chamomilla*) from Fayoum is one of the most consistently specified botanicals in the international herbal trade. The Fayoum depression, fed by the Bahr Yussef canal, combines warm days, cool nights and a dry harvest window — conditions that allow the flower to reach full maturity in the field and to be dried quickly, which is what preserves the volatile oil and the pale-gold colour buyers look for.

HS CODE (HS 2022)	ORIGIN	AVAILABLE FORMS	PACKAGING
1211.90	Fayoum, Egypt	Whole Flower / Cut & Sifted	PP Bags / Paper Sacks
PLANT PART	MINIMUM ORDER	HARVEST SEASON	SHELF LIFE
Flower heads	5 MT	March — May	24 months from production date

SPECIFICATION

DESCRIPTION	
Appearance	Whole dried flower heads, yellowish-white, uniform
Colour	Characteristic yellow-white
Odour	Characteristic aromatic, free from foreign odour
HANDLING	
Storage	Cool, dry place below 25 °C, away from direct sunlight and moisture

CERTIFICATE OF ANALYSIS PER LOT

ANALYTICAL	
Moisture	≤ 10%
Volatile Oil	≥ 0.4% v/w
Total Ash	≤ 12%
Acid-Insoluble Ash	≤ 2%
Foreign Matter	≤ 1%
Stems & Leaves	≤ 5%

Each lot ships with its own certificate of analysis, and tighter or customer-specific limits can be agreed. Microbiological, heavy-metal and pesticide-residue parameters are agreed per contract against the destination market's requirements and reported on the certificate of analysis.

Specifications are typical values; final specifications are confirmed per contract and certificate of analysis.

MACHINE-CLEANED & SORTED

MEDICINAL HERBS

Dill Weed

Anethum graveolens

الشبت المصري

Egyptian dill weed (*Anethum graveolens*) from Fayoum is supplied cut and sifted and whole. Dill weed is the dried leaf and stem, and it is a distinct product from dill seed — worth stating explicitly in an enquiry, since the two have different applications and different specifications.

HS CODE (HS 2022) 0712.90	ORIGIN Fayoum, Egypt	AVAILABLE FORMS Cut & Sifted / Whole	PACKAGING 25 kg PP Bags
PLANT PART Leaves and fine stems	MINIMUM ORDER 5 MT	PORT OF LOADING Alexandria, Egypt	DOCUMENTATION COA with every lot

SPECIFICATION

CERTIFICATE OF ANALYSIS PER LOT

HANDLING

Storage Cool, dry place below 25 °C, away from direct sunlight and moisture

Moisture, ash, foreign matter and the other analytical parameters are reported per lot on the certificate of analysis. Request a current certificate with your quotation.

EXPORT GRADE

MEDICINAL HERBS

Hibiscus

Hibiscus sabdariffa

الكرديه المصري

Egyptian hibiscus (*Hibiscus sabdariffa*) from Aswan is bought above all for colour. The dried calyces deliver the deep red infusion that beverage manufacturers, tea blenders and natural-colour formulators are paying for, and the anthocyanin pigments responsible are the reason the rest of the specification exists.

HS CODE (HS 2022) 1211.90 Some national tariffs use 0813.40 — confirm with your customs broker	ORIGIN Aswan, Egypt	AVAILABLE FORMS Whole Flower / Powder	PACKAGING PP Bags / Cartons
PLANT PART Dried calyces	MINIMUM ORDER 5 MT	HARVEST SEASON November — January	SHELF LIFE 24 months from production date

SPECIFICATION

DESCRIPTION	
Appearance	Whole dried calyces, deep red, uniform size
Colour	Deep burgundy red
Odour	Characteristic tart-fruity, free from mustiness
HANDLING	
Storage	Cool, dry place below 25 °C, away from direct sunlight and moisture

CERTIFICATE OF ANALYSIS PER LOT

ANALYTICAL	
Moisture	≤ 10%
Total Ash	≤ 10%
Acid-Insoluble Ash	≤ 1%
Foreign Matter	≤ 1%
Total Acidity (as citric acid)	≥ 15%
Broken Calyces	≤ 10%

Each lot ships with its own certificate of analysis, and tighter or customer-specific limits can be agreed. Microbiological, heavy-metal and pesticide-residue parameters are agreed per contract against the destination market's requirements and reported on the certificate of analysis.

CLEANED & SIFTED

MEDICINAL HERBS

Lemongrass

Cymbopogon citratus

حشيشة الليمون

Lemongrass (*Cymbopogon citratus*) from Ismailia is supplied cut and sifted and as powder. The citral content of the volatile oil gives the material its characteristic lemon aroma, and it is the property buyers are specifying whether the end use is an infusion, a flavour application or an extraction feedstock.

HS CODE (HS 2022) 1211.90 For herbal-tea use; a US ruling classifies culinary dried lemongrass under 1212.99 — confirm with your customs broker	ORIGIN Ismailia, Egypt	AVAILABLE FORMS Cut & Sifted / Powder	PACKAGING PP Bags / Bales
PLANT PART Leaves (cut)	MINIMUM ORDER 5 MT	HARVEST SEASON Year-round	SHELF LIFE 24 months from production date

SPECIFICATION

DESCRIPTION	
Appearance	Cut dried leaves, light green-yellow
Colour	Light green to yellowish
Odour	Characteristic lemony-citrus
HANDLING	
Storage	Cool, dry place below 25 °C, away from direct sunlight and moisture

CERTIFICATE OF ANALYSIS PER LOT

ANALYTICAL	
Moisture	≤ 12%
Volatile Oil	≥ 0.3% v/w
Total Ash	≤ 8%
Foreign Matter	≤ 1%

Each lot ships with its own certificate of analysis, and tighter or customer-specific limits can be agreed. Microbiological, heavy-metal and pesticide-residue parameters are agreed per contract against the destination market's requirements and reported on the certificate of analysis.

AROMATIC EGYPTIAN GRADE

MEDICINAL HERBS

Marjoram

Origanum majorana

المردقوش المصري

Egyptian marjoram (*Origanum majorana*) from Fayoum is one of Egypt's long-established export herbs, supplied rubbed, whole and as powder. Marjoram is milder and sweeter than oregano, and although the two are botanically close they are distinct products — specify the botanical name, since substitution between them is a documented issue in the trade.

HS CODE (HS 2022) 0712.90 As a dried culinary herb; some tariffs use 1211.90 — confirm with your customs broker	ORIGIN Fayoum, Egypt	AVAILABLE FORMS Rubbed / Whole / Powder	PACKAGING 25 kg PP Bags
PLANT PART Leaves and flowering tops	MINIMUM ORDER 5 MT	HARVEST SEASON April — June	SHELF LIFE 24 months from production date

SPECIFICATION

DESCRIPTION	
Appearance	Dried small green leaves and stems
Colour	Characteristic greyish-green
Odour	Sweet warm aromatic
HANDLING	
Storage	Cool, dry place below 25 °C, away from direct sunlight and moisture

CERTIFICATE OF ANALYSIS PER LOT

ANALYTICAL	
Moisture	≤ 12%
Volatile Oil	≥ 0.5% v/w
Total Ash	≤ 15%
Acid-Insoluble Ash	≤ 4%
Foreign Matter	≤ 1%

Each lot ships with its own certificate of analysis, and tighter or customer-specific limits can be agreed. Microbiological, heavy-metal and pesticide-residue parameters are agreed per contract against the destination market's requirements and reported on the certificate of analysis.

MEDICINAL HERBS

Oregano

Origanum vulgare

الأوريغانو المصري

Egyptian oregano (*Origanum vulgare*) from Sinai is supplied as leaves, powder and rubbed. Oregano is more pungent than marjoram and the two are frequently confused or substituted, so buyers should specify the botanical name — *Origanum vulgare* — rather than relying on the common name alone.

HS CODE (HS 2022) 1211.90	ORIGIN Sinai, Egypt	AVAILABLE FORMS Leaves / Powder / Rubbed	PACKAGING Cartons / PP Bags
PLANT PART Leaves	MINIMUM ORDER 5 MT	PORT OF LOADING Alexandria, Egypt	DOCUMENTATION COA with every lot

MEDICINAL HERBS

Parsley

Petroselinum crispum

البقدونس المصري

Egyptian parsley (*Petroselinum crispum*) from the Nile Delta is supplied as flakes, powder and whole. Dehydrated parsley is bought principally on colour and on flake integrity: a bright green flake that has not shattered into dust is the signature of controlled drying and careful handling, and it is what a food manufacturer needs for visible-herb applications.

HS CODE (HS 2022) 0712.90	ORIGIN Nile Delta, Egypt	AVAILABLE FORMS Flakes / Powder / Whole	PACKAGING PP Bags / Cartons

CLEANED & SIFTED

MEDICINAL HERBS

Peppermint

Mentha piperita

النعناع الفلفلي

Egyptian peppermint (*Mentha piperita*) from Fayoum is supplied as cut and sifted leaf and as essential oil. Menthol content and aroma strength are what buyers are specifying, and both are decided in the days after cutting: fast, controlled drying preserves the volatile oil, while excessive heat or a slow dry costs it permanently.

HS CODE (HS 2022)	ORIGIN	AVAILABLE FORMS	PACKAGING
1211.90	Fayoum, Egypt	Cut & Sifted / Essential Oil	PP Bags
PLANT PART	MINIMUM ORDER	HARVEST SEASON	SHELF LIFE
Leaves and stems	5 MT	Year-round	24 months from production date

SPECIFICATION

DESCRIPTION	
Appearance	Dried green leaves, characteristic shape
Colour	Characteristic dark green
Odour	Strong minty-menthol, characteristic
HANDLING	
Storage	Cool, dry place below 25 °C, away from direct sunlight and moisture

CERTIFICATE OF ANALYSIS PER LOT

ANALYTICAL	
Moisture	≤ 12%
Volatile Oil	≥ 1.0% v/w
Total Ash	≤ 14%
Acid-Insoluble Ash	≤ 3%
Foreign Matter	≤ 1%

Each lot ships with its own certificate of analysis, and tighter or customer-specific limits can be agreed. Microbiological, heavy-metal and pesticide-residue parameters are agreed per contract against the destination market's requirements and reported on the certificate of analysis.

MEDICINAL HERBS

Rosemary

Salvia rosmarinus

إكليل الجبل

Rosemary (*Salvia rosmarinus*) grown in Sinai is supplied as leaves and as powder. Sinai's dry, sunny conditions and well-drained soils suit an aromatic shrub that concentrates its volatile oils under moderate water stress, and the dry harvest window allows the leaf to be dried without the extended drying periods that cost aroma elsewhere.

HS CODE (HS 2022) 1211.90	ORIGIN Sinai, Egypt	AVAILABLE FORMS Leaves / Powder	PACKAGING Cartons / Bags
PLANT PART Leaves and stems	MINIMUM ORDER 5 MT	HARVEST SEASON Year-round	SHELF LIFE 24 months from production date

SPECIFICATION

DESCRIPTION	
Appearance	Dried needle-like leaves, green-grey
Colour	Characteristic green-grey
Odour	Strong characteristic camphor-pine
HANDLING	
Storage	Cool, dry place below 25 °C, away from direct sunlight and moisture

CERTIFICATE OF ANALYSIS PER LOT

ANALYTICAL	
Moisture	≤ 10%
Volatile Oil	≥ 1.0% v/w
Total Ash	≤ 8%
Acid-Insoluble Ash	≤ 2%
Foreign Matter	≤ 1%

Each lot ships with its own certificate of analysis, and tighter or customer-specific limits can be agreed. Microbiological, heavy-metal and pesticide-residue parameters are agreed per contract against the destination market's requirements and reported on the certificate of analysis.

MEDICINAL HERBS

Senna Pods

Senna alexandrina

السنا المكّي

Senna (*Senna alexandrina*) from Aswan and Upper Egypt is supplied as whole pods and as leaves. Egyptian senna — historically traded as Alexandrian senna — is a long-established export from the region, and it is bought principally by the pharmaceutical and herbal-products industries rather than as a culinary item.

HS CODE (HS 2022) 1211.90	ORIGIN Aswan & Upper Egypt	AVAILABLE FORMS Whole Pods / Leaves	PACKAGING PP Bags / Gunny Sacks
PLANT PART Pods and leaves	MINIMUM ORDER 5 MT	PORT OF LOADING Alexandria, Egypt	DOCUMENTATION COA with every lot

CONTROLLED-DRIED LEAF

MEDICINAL HERBS

Spearmint

Mentha spicata

النعناع الأخضر

Egyptian spearmint (*Mentha spicata*) from Minya is supplied cut and sifted. Spearmint differs from peppermint in its aroma profile — carvone-dominant rather than menthol-dominant — which makes the two distinct products rather than interchangeable grades, and buyers should specify the species by botanical name rather than by the word “mint”.

HS CODE (HS 2022) 1211.90	ORIGIN Minya, Egypt	AVAILABLE FORMS Cut & Sifted	PACKAGING PP / Paper Bags
PLANT PART Leaves and stems	MINIMUM ORDER 5 MT	HARVEST SEASON Year-round (2–3 harvests a year)	SHELF LIFE 24 months from production date

SPECIFICATION

DESCRIPTION	
Appearance	Dried green leaves, characteristic shape
Colour	Characteristic green
Odour	Fresh minty, characteristic
HANDLING	
Storage	Cool, dry place below 25 °C, away from direct sunlight and moisture

MEDICINAL HERBS

Sweet Basil

Ocimum basilicum

الريحان الحلو

Sweet basil (*Ocimum basilicum*) from Giza is supplied as whole leaves and cut. Basil is among the more difficult herbs to dry well: the leaf is thin and its aroma compounds are volatile, so drying that is too hot strips the aroma while drying that is too slow costs the green colour. Giza's dry harvest conditions allow the balance to be struck.

HS CODE (HS 2022) 1211.90	ORIGIN Giza, Egypt	AVAILABLE FORMS Whole Leaves / Cut	PACKAGING Cartons / PP Bags
PLANT PART Leaves	MINIMUM ORDER 5 MT	HARVEST SEASON May – October	SHELF LIFE 24 months from production date

SPECIFICATION

DESCRIPTION	
Appearance	Dried green leaves, characteristic shape
Colour	Characteristic green
Odour	Sweet-spicy characteristic
HANDLING	
Storage	Cool, dry place below 25 °C, away from direct sunlight and moisture

CERTIFICATE OF ANALYSIS PER LOT

ANALYTICAL	
Moisture	≤ 12%
Volatile Oil	≥ 0.5% v/w
Total Ash	≤ 14%
Acid-Insoluble Ash	≤ 3%

MEDICINAL HERBS

Thyme

Thymus vulgaris

الزعرور المصري

Egyptian thyme (*Thymus vulgaris*) from Sinai is supplied as leaves, ground, and whole. Sinai's dry climate and well-drained soils suit an aromatic shrub whose commercial value lies in its volatile oil, and the reliable dry harvest window allows the leaf to be dried quickly enough to preserve it.

HS CODE (HS 2022) 0910.99	ORIGIN Sinai, Egypt	AVAILABLE FORMS Leaves / Ground / Whole	PACKAGING PP Bags / Cartons
PLANT PART Leaves and stems	MINIMUM ORDER 5 MT	HARVEST SEASON April – June	SHELF LIFE 24 months from production date

SPECIFICATION

DESCRIPTION	
Appearance	Dried small leaves on stems, greyish-green
Colour	Greyish-green
Odour	Strong characteristic thyme
HANDLING	
Storage	Cool, dry place below 25 °C, away from direct sunlight and moisture

CERTIFICATE OF ANALYSIS PER LOT

ANALYTICAL	
Moisture	≤ 12%
Volatile Oil	≥ 1.0% v/w
Total Ash	≤ 15%
Acid-Insoluble Ash	≤ 4%
Foreign Matter	≤ 1%

MACHINE-CLEANED & SORTED

CULINARY SPICES

Anise Seeds

Pimpinella anisum

اليانسون المصري

Egyptian anise (*Pimpinella anisum*) from Fayoum is supplied as whole seeds and powder. Anise is bought for its distinctive sweet aroma, driven by an anethole-dominant volatile oil, and Egyptian anise has a long-established position in the international spice and beverage trade.

HS CODE (HS 2022) 0909.61 Whole; 0909.62 when crushed or ground	ORIGIN Fayoum, Egypt	AVAILABLE FORMS Whole Seeds / Powder	PACKAGING 25 kg PP Bags
PLANT PART Seeds (dried fruit)	MINIMUM ORDER 5 MT	HARVEST SEASON May – June	SHELF LIFE 24 months from production date

SPECIFICATION

DESCRIPTION	
Appearance	Whole dried seeds, greyish-green, pear-shaped
Colour	Greyish-green
Odour	Sweet characteristic anise
HANDLING	
Storage	Cool, dry place below 25 °C, away from direct sunlight and moisture

CERTIFICATE OF ANALYSIS PER LOT

ANALYTICAL	
Moisture	≤ 10%
Volatile Oil	≥ 2.0% v/w
Total Ash	≤ 12%
Acid-Insoluble Ash	≤ 2.5%
Foreign Matter	≤ 1%
Broken Seeds	≤ 5%

Each lot ships with its own certificate of analysis, and tighter or customer-specific limits can be agreed. Microbiological, heavy-metal and pesticide-residue parameters are agreed per contract against the destination market's requirements and reported on the certificate of analysis.

CULINARY SPICES

Bay Leaves

Laurus nobilis

ورق الغار

Bay leaves (*Laurus nobilis*) from Sinai are supplied as whole leaves. Bay is bought on leaf integrity, colour and aroma: a whole, unbroken leaf with good green colour is the signature of careful drying and handling, and broken material is worth less even where the aroma is intact.

HS CODE (HS 2022) 0910.99	ORIGIN Sinai, Egypt	AVAILABLE FORMS Whole Leaves	PACKAGING Cartons / PP Bags
PLANT PART Leaves	MINIMUM ORDER 5 MT	HARVEST SEASON Year-round	SHELF LIFE 24 months from production date

SPECIFICATION

DESCRIPTION	
Appearance	Whole dried leaves, green, elliptical
Colour	Characteristic green
Odour	Characteristic aromatic, free from mustiness
HANDLING	
Storage	Cool, dry place below 25 °C, away from direct sunlight and moisture

CERTIFICATE OF ANALYSIS PER LOT

ANALYTICAL	
Moisture	≤ 10%
Volatile Oil	≥ 0.8% v/w
Total Ash	≤ 7%
Acid-Insoluble Ash	≤ 1%
Foreign Matter	≤ 1%
Broken Leaves	≤ 10%

Each lot ships with its own certificate of analysis, and tighter or customer-specific limits can be agreed. Microbiological, heavy-metal and pesticide-residue parameters are agreed per contract against the destination market's requirements and reported on the certificate of analysis.

CULINARY SPICES

Caraway Seeds

Carum carvi

الكراوية المصرية

Egyptian caraway (*Carum carvi*) from Upper Egypt is supplied whole and ground. Caraway's characteristic aroma is carvone-dominant, which makes it a distinct product from cumin despite a superficial resemblance in seed appearance — a distinction worth stating in the specification, since confusion between the two occurs in the trade.

HS CODE (HS 2022) 0909.61 Whole; 0909.62 when crushed or ground	ORIGIN Upper Egypt	AVAILABLE FORMS Whole / Ground	PACKAGING 25–50 kg PP Bags
PLANT PART Seeds (dried fruit)	MINIMUM ORDER 5 MT	PORT OF LOADING Alexandria, Egypt	DOCUMENTATION COA with every lot

SPECIFICATION

CULINARY SPICES

Cumin Seeds

Cuminum cyminum

الكمون المصري

Egyptian cumin (*Cuminum cyminum*) from Upper Egypt is supplied as whole seeds and ground. Cumin is among the most traded spices in the world and among the easiest to buy badly: the seed looks broadly similar across origins and grades, while the properties that matter to a manufacturer — aroma strength, cleanliness and consistency — are not visible in a photograph.

HS CODE (HS 2022) 0909.31 Whole; 0909.32 when crushed or ground	ORIGIN Upper Egypt	AVAILABLE FORMS Whole Seeds / Ground	PACKAGING 25 kg PP Bags
PLANT PART Seeds (dried fruit)	MINIMUM ORDER 5 MT	HARVEST SEASON April – June	SHELF LIFE 24 months from production date

SPECIFICATION

DESCRIPTION	
Appearance	Whole dried seeds, oblong, brownish-green
Colour	Brownish-green, uniform
Odour	Strong characteristic, warm and earthy
HANDLING	
Storage	Cool, dry place below 25 °C, away from direct sunlight and moisture

CERTIFICATE OF ANALYSIS PER LOT

ANALYTICAL	
Moisture	≤ 10%
Volatile Oil	≥ 2.5% v/w

CULINARY SPICES

Fennel Seeds

Foeniculum vulgare

الشمر المصري

Egyptian fennel (*Foeniculum vulgare*) from Sohag is supplied as whole seeds and crushed. Fennel is bought for its sweet, anise-like aroma, which comes from an anethole-dominant volatile oil, and freshness matters more here than in many spices — the aroma is at its strongest in the months following harvest.

HS CODE (HS 2022) 0909.61 Whole; 0909.62 when crushed or ground	ORIGIN Sohag, Egypt	AVAILABLE FORMS Whole Seeds / Crushed	PACKAGING PP Bags / Sacks
PLANT PART Seeds (dried fruit)	MINIMUM ORDER 5 MT	HARVEST SEASON May — June	SHELF LIFE 24 months from production date

SPECIFICATION

DESCRIPTION	
Appearance	Whole dried seeds, greenish-yellow, elongated
Colour	Greenish to yellowish-green
Odour	Sweet anise-like characteristic
HANDLING	
Storage	Cool, dry place below 25 °C, away from direct sunlight and moisture

CERTIFICATE OF ANALYSIS PER LOT

ANALYTICAL

MACHINE-CLEANED & SORTED

CULINARY SPICES

Fenugreek

Trigonella foenum-graecum

الحلبة المصرية

Egyptian fenugreek (*Trigonella foenum-graecum*) from Upper Egypt is supplied as whole seeds and powder. Fenugreek is unusual in serving three quite different markets — culinary, nutraceutical and feed — and the specification that matters differs sharply between them, so an enquiry should state the intended use.

HS CODE (HS 2022) 0910.99	ORIGIN Upper Egypt	AVAILABLE FORMS Whole Seeds / Powder	PACKAGING 25 kg PP Bags
PLANT PART Seeds	MINIMUM ORDER 5 MT	HARVEST SEASON March — April	SHELF LIFE 24 months from production date

SPECIFICATION

DESCRIPTION	
Appearance	Small hard yellow-brown seeds, rhomboid
Colour	Yellowish-brown
Odour	Characteristic maple-like, slightly bitter
HANDLING	
Storage	Cool, dry place below 25 °C, away from direct sunlight and moisture

COLOUR REPORTED PER LOT

CULINARY SPICES

Paprika & Chili

Capsicum annuum

البابريكا والشطة

Egyptian paprika and chilli (*Capsicum annuum*) from the Nile Delta are supplied whole, crushed and as powder. Colour is the property that drives value in this category, and it is measured as extractable pigment by the ASTA method rather than judged by appearance — a material can look vivid and extract poorly, or look dull and extract well.

HS CODE (HS 2022) 0904.21 Dried whole; 0904.22 when crushed or ground	ORIGIN Nile Delta, Egypt	AVAILABLE FORMS Whole / Crushed / Powder	PACKAGING 25 kg PP Bags
PLANT PART Dried fruit (pods)	MINIMUM ORDER 5 MT	HARVEST SEASON August — October	SHELF LIFE 24 months from production date

SPECIFICATION

DESCRIPTION	
Appearance	Whole dried red pods, crushed flakes or powder
Colour	Deep red, uniform

MACHINE-CLEANED & SORTED

SEEDS

Nigella Seeds

Nigella sativa

حبة البركة

Egyptian nigella (*Nigella sativa*) from Upper Egypt — black seed, or habbat al-barakah — is supplied as whole seeds and as cold-pressed oil. Egyptian nigella has a long-established position in the international trade, and it serves both the culinary market and, in considerably larger value terms, the nutraceutical and herbal-products industries.

HS CODE (HS 2022) 0910.99 As a spice; some tariffs use 1207.99 or 1211.90 — confirm with your customs broker	ORIGIN Upper Egypt	AVAILABLE FORMS Whole Seeds / Cold-Press Oil	PACKAGING PP Bags / Sacks
PLANT PART Seeds	MINIMUM ORDER 5 MT	HARVEST SEASON May — June	SHELF LIFE 24 months from production date

SPECIFICATION

DESCRIPTION

SEEDS

Sesame Seeds (Hulled)

Sesamum indicum

سمسم مقشور

Egyptian hulled sesame (*Sesamum indicum*) from Sohag is supplied ready to use. Hulling removes the seed coat, producing the uniform ivory-white seed specified for bakery, confectionery and tahini manufacture, and the properties buyers judge it on are colour uniformity, the absence of unhulled and broken seed, and freedom from foreign matter.

HS CODE (HS 2022) 1207.40	ORIGIN Sohag, Egypt	AVAILABLE FORMS Hulled / Ready-to-use	PACKAGING 25 kg PP Bags
PLANT PART Seeds, hulled	MINIMUM ORDER 10 MT	HARVEST SEASON August – October	SHELF LIFE 24 months from production date

SPECIFICATION

DESCRIPTION	
Appearance	Small oval hulled seeds, cream-white
Colour	Cream-white to off-white

Lupine (Tirmis) *Lupinus albus* 45

White Kidney Beans *Phaseolus vulgaris* 47

Specifications are typical values. All specifications are subject to per contract analysis and results of analysis.

LEGUMES

Black-Eyed Peas

Vigna unguiculata

اللوبيا المصرية

Egyptian black-eyed peas (*Vigna unguiculata*) from the Nile Delta — cowpeas — are supplied whole and dried. The crop is a staple across Africa, the Middle East, the southern United States and South Asia, and it is bought principally by canners, retail packers and the food-service trade.

HS CODE (HS 2022) 0713.35	ORIGIN Nile Delta, Egypt	AVAILABLE FORMS Whole Dried	PACKAGING 50 kg PP Sacks
PLANT PART Dry seeds	MINIMUM ORDER 10 MT	PORT OF LOADING Alexandria, Egypt	DOCUMENTATION COA with every lot

SPECIFICATION

CERTIFICATE OF ANALYSIS PER LOT

HANDLING

Storage Cool, dry place below 25 °C, away from direct sunlight and moisture

Moisture, ash, foreign matter and the other analytical parameters are reported per lot on the certificate of analysis. Request a current certificate with your quotation.

LEGUMES

Broad Beans (Fava)

Vicia faba

الفاول المصري

Egyptian fava beans (*Vicia faba*) from the Nile Delta are supplied whole, peeled and split. Fava is a staple across Egypt and the wider region, and the three forms serve distinct markets: whole beans for traditional slow-cooked preparations, peeled and split for faster-cooking and processed applications.

HS CODE (HS 2022) 0713.50	ORIGIN Nile Delta, Egypt	AVAILABLE FORMS Whole / Peeled / Split	PACKAGING 50 kg PP Sacks
PLANT PART Dry seeds	MINIMUM ORDER 10 MT	PORT OF LOADING Alexandria, Egypt	DOCUMENTATION COA with every lot

KABULI & DESI GRADE

LEGUMES

Chickpeas

Cicer arietinum

الحمص المصري

Egyptian chickpeas (*Cicer arietinum*) are supplied whole and split, in both Desi and Kabuli types, from Upper Egypt. The distinction matters commercially and should be stated in every enquiry: Kabuli is the larger, paler, smoother-coated type specified for canning, hummus and whole-seed applications, while Desi is smaller and darker and is used principally for splitting and milling.

HS CODE (HS 2022) 0713.20	ORIGIN Upper Egypt	AVAILABLE FORMS Whole / Split (Desi & Kabuli)	PACKAGING 50 kg PP Sacks
PLANT PART Dry seeds	MINIMUM ORDER 10 MT	PORT OF LOADING Alexandria, Egypt	DOCUMENTATION COA with every lot

LEGUMES

Lupine (Tirmis)

Lupinus albus

الترمس المصري

Egyptian lupin (*Lupinus albus*) from the Nile Delta — tirmis — is supplied whole and dried. Lupin is a traditional snack across Egypt and the eastern Mediterranean, consumed after soaking and brining, and it has a growing second market as a high-protein ingredient in food manufacture.

HS CODE (HS 2022) 0713.90 Dried, for human consumption; some tariffs classify lupines under 1214.90 — confirm with your customs broker	ORIGIN Nile Delta, Egypt	AVAILABLE FORMS Whole Dried	PACKAGING 25–50 kg Sacks
PLANT PART Dry seeds	MINIMUM ORDER 5 MT	PORT OF LOADING Alexandria, Egypt	DOCUMENTATION COA with every lot

LEGUMES

Red Lentils

Lens culinaris

العدس الأحمر

Egyptian red lentils (*Lens culinaris*) from Upper Egypt are supplied whole, split and decorticated. The three forms serve different applications and cook very differently, so the enquiry should state which is required: decorticated split lentils break down quickly into a purée and are the form used for soups and dals, while whole lentils hold their shape.

HS CODE (HS 2022) 0713.40	ORIGIN Upper Egypt	AVAILABLE FORMS Whole / Split / Decorticated	PACKAGING 50 kg PP Sacks

LEGUMES

White Kidney Beans

Phaseolus vulgaris

الفاصوليا البيضاء الكلوية

Egyptian white kidney beans (*Phaseolus vulgaris*) from Beheira are supplied whole and dried. Beheira, in the western Nile Delta, is a long-established growing area for the crop, and the material is bought principally by canners, ready-meal manufacturers and the retail packing trade.

HS CODE (HS 2022) 0713.33	ORIGIN Beheira, Egypt	AVAILABLE FORMS Whole Dried	PACKAGING 50 kg PP Sacks

[†] The code depends on the form supplied or on national tariff practice; the product page gives the alternative.

HS codes are the international 6-digit HS 2022 subheadings. National tariff lines extend them and classification can vary by destination and product form, so confirm the applicable code with your customs broker.

Minimum order: 5 MT per product (10 MT for some seeds and legumes, shown on each product page), or one 20 ft FCL of mixed products.

FROM ENQUIRY TO SHIPMENT

How to *Order*

01

ENQUIRY

Send the product and form, quantity, destination port and preferred Incoterm. We typically respond within 24 hours.

02

SAMPLES

Complimentary 100–300 g samples for qualified B2B buyers, up to five products, each with a certificate of analysis. Courier freight is paid by the buyer or deducted from the first order.

03

QUOTATION

Quotations are valid for 15 days. Specification, grade and packaging are agreed in writing before confirmation.

04

CONFIRMATION

The order is confirmed on receipt of the signed proforma invoice and the advance deposit.

05

PRODUCTION & QC

Each lot is checked against the agreed specification. Pre-shipment samples and third-party inspection are available.

06

SHIPMENT

Loading at Alexandria. Vessel details, ETD and ETA follow within 48 hours of shipment, with the export documents.

MINIMUM ORDER 5 MT per product (10 MT for some seeds and legumes, shown on each product page) or one 20 ft FCL of mixed products. Trial orders of 1–3 MT case by case.

INCOTERMS FOB Alexandria (standard), CFR, CIF and EXW Fayoum. Other Incoterms® 2020 on request.

PORT Alexandria, Egypt. Damietta or Port Said on request.

LEAD TIME Typically 14–21 days.

PAYMENT T/T: 30% deposit, 70% against copy of the bill of lading. L/C at sight. D/P documentary collection.

CURRENCY US dollars. Euro pricing on request.

CONTAINERS 20 ft FCL 18–22 MT · 40 ft FCL 22–26 MT · 40 ft HC 24–28 MT.

PACKAGING PP woven or multi-wall paper bags of 10, 12.5, 20 or 25 kg; big bags (FIBC) of 500 kg–1 MT; private label from 1 FCL per SKU.

With every shipment

- ◆ Certificate of Analysis (COA)
- ◆ Phytosanitary Certificate
- ◆ Certificate of Origin
- ◆ Commercial Invoice and Packing List
- ◆ Bill of Lading (full set)

As the destination requires
